

### Remarks

The specification was amended to state, “Recent Sites region 500 includes the latest list of sites recently visited; color indicates time since last visited. Favorite Sites region 510 includes sites that are most frequently visited; color indicates frequency. File Downloads region 515 includes the recently downloaded files. Image Downloads region 520 include the recently downloaded images. Web Services region 525 includes the search results; color indicates score against the search criteria.” This was copied almost verbatim from Figure 5. Therefore, no new matter has been added.

Claims 38 and 50 were amended to correct a blatant error. The claim recited a “*chronological* order based on *frequency*” which should be “an order based on frequency of visits” to be consistent with the rest of the claim which pertains to frequency of visits not chronology, the Specification Page 11 lines 1 and 26, and Figure 5 “Favorite Sites” region 510 which states, “These are the sites that are most frequently visited. Color indicates frequency.” This should not require any new searching because the “frequency” factor was already searched.

This Amendment has been filed to simplify the issues for Appeal and does not raise any new issues.

Respectfully submitted,
